

Abdul-Basit Hamzat

Software Developer

I am a forward thinking and resourceful software development professional with strong knowledge of a wide range of in demand programming languages. I'm an enthusiastic and highly motivated individual who has a clear understanding of the role and responsibilities associated with being a software developer, familiar with testing, debugging and solving problems found in new or existing software systems. I am a great team player that's focused on learning more and adding value to others while creating flawless masterpieces in the process.
